

Laure Betris

New album « Colline de pierre »

Release 03.11.23 on Humus Records

After Kasette, Pier and many collective projects (Berceuses, Horizon liquide, HEX...) Laure Betris releases a 1st album with her name.

An intimate exploration in French (her mother tongue) and Chaldean (the language of her Iraqi father). In it she addresses themes such as memory, degeneration, exile, loss and transformation.

These songs developed live before being recorded. As an immersive and intimate solo version, and then as an explosive duo with drummer-percussionist-singer Yann Hunziker.
